<http://saintspub.com/independence/>

Bring someone with you. This is a networking opportunity.

This presentation will focus on a recent plant expansion and cloth filters.

Directions to the Sin-A-Bar Plant:

Take I-70 East of Kansas City to Exit 24 north. Take the first right onto NE McQuerry Rd and proceed east to NE Seymour Road. Turn left (north) and proceed to the plant entrance on your right.

Description:

The Sin-A-Bar WWTF includes a headworks with fine screening and grit removal, Denitrification activated sludge basins, secondary clarifiers, tertiary cloth filters with chemical addition, UV disinfection, effluent pumping and re-aeration, biosolids digestion/storage tanks and sludge reed beds.

A happy hour and dinner is being planned by the Young Professionals Committee: Contact Eric Farrow for details: Eric.Farrow@hdrinc.com

RSVP to 816-853-2910 or to mpearson@snyder-associates.com so we can get a headcount!
